

## Rifle Range Construction; A Text-Book to Be Used in the Construction of Rifle Ranges, with Details of All Parts of the Work (Paperback)

By H C Wilson

Theclassics.Us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1909 edition. Excerpt: . 163. There are two kinds of flags Flags, Observa- used on rifle ranges: wind flags and tion Equipment danger flags. and Accessories. 164. The wind flags are made of different sizes, but the larger they are the better. A pennant 6 feet on the hoist and from 25 to 30 feet on the fly seems to give the greatest satisfaction. The point of a pennant will show light winds, and the size of the flag will give a better unit on which to base the force of the wind. 165. In the model rifle range (see frontispiece and chapter II, plate I, page 18-a) wind flags have been placed at every hundred yards at the dividing-line between the different sections of the range. This is a good rule to follow and will insure the range being properly flagged. One great trouble with numbers...
