Harper Paperbacks, United States, 2013. Paperback. Book Condition: New. Reprint. 200 x 132 mm. Language: English . Brand New Book. Welcome to our genetic world.Fast, furious, and out of control.This is not the world of the future--it s the world right now.Is a loved one missing some body parts? Are blonds becoming extinct? Is everyone at your dinner table of the same species? Humans and chimpanzees differ in only four hundred genes; is that why a chimp fetus resembles a human being? And should that worry us? There s a new genetic cure for drug addiction--is it worse than the disease?We live in a time of momentous scientific leaps, a time when it s possible to sell our eggs and sperm online for thousands of dollars and to test our spouses for genetic maladies. We live in a time when one-fifth of all our genes are owned by someone else--and an unsuspecting person and his family can be pursued cross-country because they happen to have certain valuable genes within their chromosomes.The future is closer than you think.
