

Ultimate Field Trip 3 Wading into Marine Biology

By Susan E. Goodman

Aladdin. Paperback. Book Condition: New. Michael J. Doolittle (illustrator). Paperback. 48 pages. Dimensions: 10.0in. x 8.0in. x 0.2in. Dont think a book can take you on the Ultimate Field Trip Think again! Imagine going on a week-long exploration of the Bay of Fundy, off the coast of Maine, to play with the puffins, sun with the seals, and get an up close look at what life is like underwater. One group of middle-school kids actually made the journey -- and this book allows you to join their field trip, without getting slimed by seaweed! A fascinating firsthand account of the science of marine biology, this photographic expedition sheds new light on the amazing hidden world under the water. Come along for seven days of sailing, sea creatures, and science that youll never forget. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Ally Reichel

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
