

Future Americas

By Helfers, John (editor)

Daw Books, Bergenfield, New Jersey, U.S.A., 2008. Soft Cover. Book Condition: New. Predicting the future has long been a cornerstone of science fiction, and the number of trends in society, politics, and religion that have followed these forecasts is impressive. Now sixteen authors have taken up the challenge of gazing into the future and seeing where America may be the day after tomorrow. From an America where history has become myth and misinformation amid the ruins of a once-great land to a place where the only existence for genetic misfits is as slaves to a company intent on cloning the world's species, both extinct and endangered, back to a balanced ecosystem, here are stories that will have readers thinking about the future, and about how their own actions now could make a difference tomorrow.
